Axcess ™ 6000 Series

Individual compartment control for reusable assets
and self-service automated order pickup

Automated Locker System

Powered by Connect n' Go ™ Technology

Secure Access

Allows you to restrict access based on job roles, departments, work orders, etc.

Versatile Compartments

Spacious compartments provide ultra-high-density storage of a wide range of items.

Enhanced Product Visibility

Clear doors and bright interior lighting encourage quick, accurate item selection.

Supported User Access:

- Keypad
- Barcode or magnetic strip cards
- RFI proximity cards

Keep Assets Charged

Compartments can be wired to a llow recharging when items are returned.
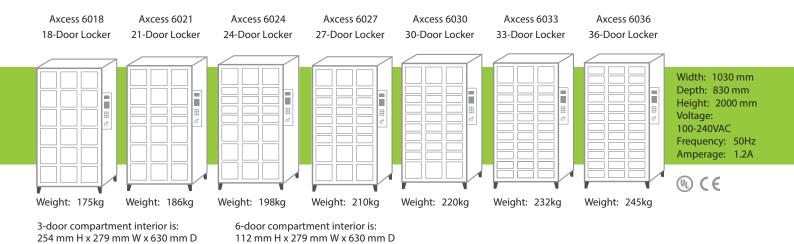

- **Check out / check in**

  This function can also manage and control items that require calibration, certification, recharging and more. High cost specialty tools and diagnostic equipment can be sorted/checked out, their usage recorded, and checked back in. You will always know when an item has been checked out, and when it was returned. You can set loan periods and notification alerts for overdue items.

- **Single and multiple item dispense**

  Versatile functionality allows dispensing of large, single items or multiple items of a single SKU.

- **Self-service automated order pick-up**

  Provide a secure area for your customers to pick up orders and preassembled spares and parts. Users receive a secure pick-up code via email, which ensures only the right person can retrieve the items.

Trajectory Cloud: The Smarts Behind The Axcess Automated Lockers System

Our Trajectory Cloud ™ software makes these smart devices absolutely brilliant. You'll know who used what, when and where, 24/7. And you can automate replenishment and set up alerts and notifications to put an end to being out of stock.

PLUG IN   CONNECT   READY

Connect n' Go Technology Makes It Easy to Implement.

All Axcess devices are easy-to-use Internet appliances (MS Windows-free). They're powered by our Connect n' Go ™ Technology, so you simply plug the device into a power supply, connect to the Internet and you're ready to go.
