MegaStore ™ 9500

Combines smart cabinet and drawers to track
your toughest dispensing challenges

Ultra-High-Density Dispensing

Powered by Connect n' Go ™ Technology

Easy Access, Easy Tracking

Authorised users can select what they need, while smart   sensors automatically count every item removed or stocked.

Ultra-High-Density Inventory Control

A combination of shelves and drawers offers ultra-high-density dispensing for a wide mix of product shapes and sizes.

Automatically Tracks Inventory

Smart sensor technology accurately counts every item removed   or restocked.

Controls User Access

Restrict users by cabinet and/or drawer while offering full   access to all items inside.

Flexible Configurations

Optimise for your product mix with combinations of shelf dispensers, pushers and bins to manage a wide range of products.

Supports a Wide Range of User ID

Choose from barcode, magnetic strip, RFI proximity cards or keypad entry.

- **Intelligent inventory tracking**

  No RFID tags required. No need to rely on manual entering of items taken or added.

- **Increase accountability and control**

  Smart sensors count every item to increase visibility and eliminate being out of stock.

- **Point-of-use productivity**

  Provides quick access to hundreds of critical supplies and tools, 24/7.

Bins, pushers and smart platforms count every item removed or added.

MegaStore ™ 9500

Flexible Shelf and Drawer Configurations for
Ultra-High-Density Dispensing

   12 Bins (139.7 mm H × 158.8 mm W × 184.1 mm D)
Drawer 5
   4 Bins (241.3 mm H × 355.6 mm W × 198 mm D)

Trajectory™ cloud

Trajectory Cloud: The Smarts Behind The MegaStore 9500

Trajectory Cloud ™ software makes these smart devices absolutely brilliant. You'll know who used what, when and where, 24/7. You can also automate replenishment, and set up alerts and notifications to put an end to being out of stock.

PLUG IN   CONNECT   READY

Connect n' Go Technology Makes It Easy to Implement.

All MegaStore devices are easy-to-use Internet appliances (MS Windows-free). They're powered by our Connect n' Go ™ Technology, so you simply plug the device into a power supply, connect to the Internet and you're ready to go.
