

# MegaStore™ 9900 Series

The smart supply cabinet in a space-saving format

# High-Density Dispensing

Powered by Connect n' Go™ Technology

### Easy Access, Easy Tracking

Authorised users can select what they need, while smart sensors automatically count every item removed or restocked.

### Ultra-High-Density Inventory Control

Track up to 288 SKUs and thousands of individual items.

### Smart Drawer Control

Restricts users to specific drawers while offering easy access to all items in them.

### Flexible Configurations

Optimise for your product mix with a variety of drawer and bin configurations.

### Supports a Wide Range of User ID

Choose from barcode, magnetic strip, RFI proximity cards or keypad entry.

- **Intelligent inventory tracking**  
No RFID tags required. No need to rely on manual entering of items taken or added.
- **Increase accountability and control**  
Smart sensors count every item to increase visibility and eliminate being out of stock.
- **Point-of-use convenience**  
Provides access to hundreds of critical supplies and tools where they're needed, 24/7.

Smart sensors in each drawer count every item removed or added from bins, from 10g to 18kg. Available in four sizes, one bin size per drawer.

## Trajectory Cloud: The Smarts Behind The MegaStore 9900

Trajectory Cloud™ software makes these smart devices absolutely brilliant. You'll know who used what, when and where, 24/7. You can also automate replenishment and set up alerts and notifications to put an end to stock-outs.

PLUG IN

READY

## Connect n' Go Technology Makes It Easy to Implement

All MegaStore devices are easy-to-use Internet appliances (MS Windows-free). They're powered by our Connect n' Go™ Technology, so you simply plug the device into a power supply, connect to the Internet and you're ready to go.
